Mousley Museum to Receive Emergency Roof Replacement

Today the Board of Supervisors approved a contract with Universal Coatings, Inc. to replace the roof of the Mousley Museum, located on Panorama Drive in Yucaipa. The Yucaipa Valley Historical Society, under a 5-year lease agreement with the County, currently operates and manages the Mousley Museum, which has allowed the museum to remain open to the public. The emergency action was necessary to ensure the safety of the public and to protect the Historical Society's artifacts, which are irreplaceable.

"I am pleased that we are able to resolve this urgent issue in such a timely manner," said Third District Supervisor Dennis Hansberger. "Despite recent repairs and patches, leaks were detected after the recent rainstorms, making it necessary that the roof be replaced immediately, instead of next Spring, in order to prevent further damage."
